

New Driver Frequently Asked Questions

Do I have to drive?

No, you should only drive if you feel comfortable driving. There are driver and safety tip videos and written material available for your review. We have many commuters who ride but do not drive the vans.

How often should I drive?

Once or twice a week is good to start. As you are more comfortable driving you can take on additional runs but you never have to drive more than you are comfortable with.

Do I have to drive all the way to Boston?

No, there are many shorter runs that you can help with including bringing the vans less than a mile to the Park-N-Ride or down the street from the parking garage to the pick up spot. In a van pool every little bit helps!

Are drivers covered by Yes! We Van, LLC insurance?

Yes, Yes! We Van has 3 million in combined insurance. You will be listed on our van insurance policy as an insured. Of course, your own insurance is also in effect as it covers you as a driver no matter what vehicle you are driving. As always, moving violations such as speeding tickets, etc. affect your driving record directly.
